

MUHAMMAD AMIN BIN AZMAN

**3.4U INSPECTION ENGINEER / DATA RECORDER
(OFFSHORE)**

PERSONAL DATA

Name	:	MUHAMMAD AMIN BIN AZMAN
I/C No.	:	870217-02-5591
Date of Birth	:	17th February 1987
Nationality	:	MALAYSIAN
Marital Status	:	MARRIED
Point of Hire	:	PENANG, MALAYSIA
Contact No.	:	+60125065516
Email Address	:	aminazman.inspection@gmail.com
LinkedIn	:	linkedin.com/in/aminazman-inspection
Website	:	tinyurl.com/aminazman-inspection

PROFESSIONAL QUALIFICATIONS & COURSES ATTENDED

- **Underwater Inspection Controller Grade CSWIP 3.4U**
Cert No: 542968 | Issued: 24 Oct 2023 | Date of Expiry: 25th July 2028
- **Petronas Offshore Safety Passport**
Cert No: OSP20240040915 | Date of Expiry: 16th September 2026
- **FOET & Travel Safely By Boat with CA-EBS (OPITO approved / BOSIET)**
OPITO Standard: 5707 / 5750 | Date of Expiry: 1st December 2026
- **Offshore Medical Examination (ADNOC Approved)**
Date of Expiry: 27th October 2026
- **ADNOC HSE Induction**
Date of Expiry: 30th October 2027
- **Offshore Medical Examination (OEUK & Petronas Approved)**
Clinic: Klinik Berkat Sentral | Date of Expiry: 16th September 2026
- **Basic H2S Training (OPITO Approved / Solas)**
OPITO Course Code: 9014 | Date of Expiry: 27th October 2027
- **Mercury Awareness Training (CLBSADL012)**
Date of Expiry: 3rd June 2027
- **Petronas Carigali Sdn Bhd Permit to Work (PCSB PTW Level 1)**
Date of Expiry: 13th October 2027

- **International Passport**
Passport No: A70360403
- **Bachelor of Engineering (Honours) Petroleum Engineering**
Issued by: Universiti Teknologi Malaysia (UTM) | CGPA: 3.44 | Graduation Date: 25th September 2010

TECHNICAL SKILLS

Subsea Inspection Suites	: Sirrihatt SirOnline, IDAMS WinCairs, OBS Studio
Corporate & Manufacturer Trained	: Fugro DVR & Fugro Sense Structures (Trained under Fugro HQ, JAFZA, Dubai), Voyis Discovery, VSLAM Acquisition, Agisoft Photogrammetry (Officially Trained by Voyis Canada)
Platform Familiarity	: Digital Edge (EdgeDVR) Workflows, FET VisualSoft (VisualDVR & VisualEvent)
NDT & Operations	: Impact Subsea FMD Oceanscan, FMD Gamm@scan, ISIS & IICORR CP Logging, Buckleys Bathycorrometer CP, Underwater MPI, GVI, CVI, Cygnus UT Thickness, Welding Inspection, RT/MT/PT/UT
CAD & Utilities	: AutoCAD 2D/3D, SketchUp, MS Office (Word, Excel, Access, PowerPoint, Project, Visio)

DETAILED CAMPAIGN & EMPLOYMENT TIMELINE

Company	: Sirrihat Subsea Services Sdn Bhd
Project	: Onshore Engineering & Reporting Support (Subang Jaya, Selangor, Malaysia)
Duration	: November 2022 – September 2023
Position Title	: Data QA/QC Coordinator

Scope/Details:

- Final Reporting: Converted rough daily logs from offshore operations into polished, formal client reports.
- Data QA/QC: Verified accuracy of subsea video footage, timestamps, and anomaly descriptions against physical logs.
- Database Management: Uploaded validated offshore data and inspection logs into integrity software systems.
- Drawing Updates: Marked up CAD and 'As-Built' drawings to reflect new subsea findings and anomalies.
- Work Pack Creation: Wrote detailed, step-by-step inspection procedures and checklists for upcoming subsea campaigns.
- Desktop Studies: Reviewed historical integrity reports to identify targeted areas of interest for future monitoring.

Company	: Sapura Subsea Services Sdn Bhd
Client	: Petronas Carigali Sdn Bhd
Project	: Major Platform Inspection at Tangga Barat Field by Mini ROV (Platform TBGP, Tangga Barat Field, Terengganu Waters, Malaysia)

Duration : Apr 2026

Position Title : 3.4U Inspection Engineer / Data Recorder (Offshore)

Scope/Details:

- Executed subsea structural inspections on TBCP platform utilizing Mini ROV systems for visual and data capture.
 - Logged real-time inspection data, reviewed mini ROV video logs, and performed QA/QC checks on subsea structural anomalies.
 - Compiled and finalized subsea inspection logs and anomaly records into draft client reports for Petronas Carigali.
-

Company : **Fugro Middle East**

Client : ADNOC

Project : Advanced Technology Onboarding (Upper Zakum Field Cluster Framework, Fugro HQ, JAFZA, Dubai)

Duration : December 2025

Location : ROC, Fugro HQ, Jafza Dubai

Position Title : 3.4U Inspection Engineer (Advanced Technology Onboarding)

Scope/Details:

- Systems Mastery & Onboarding: Completed comprehensive corporate training at Fugro HQ, JAFZA, mastering VOYIS Live Discovery, VSLAM Acquisition, Agisoft Photogrammetry, and FDVR & Sense Structures data acquisition suites.
 - Tech Configuration: Assisted in setting up subsea 3D photogrammetry and optical modeling software configurations, conducting simulated remote data acquisition workflows to ensure campaign readiness.
-

Company : **Fugro Middle East**

Client : ADNOC

Project : Project Readiness & Scoping (Upper Zakum Field Cluster Framework, Fugro HQ, JAFZA, Dubai)

Duration : October 2025

Location : ROC, Fugro HQ, Jafza Dubai

Position Title : 3.4U Inspection Engineer (Project Readiness & Scoping)

Scope/Details:

- Project Readiness: Mobilized to Fugro HQ, JAFZA for initial framework preparation, executing detailed work pack reviews and asset scoping for the Upper Zakum jacket inspection and crossing survey.
- Engineering Support: Assisted in preliminary subsea 3D photogrammetry software setup, performing data-readiness checks on engineering drawings and jacket node mapping.

Company : **Tanjung Offshore Services Sdn Bhd**

Client : RINA Malaysia

Project : Subsea intermediate inspection for Class & Statutory Certification (Bayan Field, Sarawak Waters)

Duration : 18 Aug 2025 – 26 Aug 2025

Vessel/Barge : T7 Elise MOPU (4-Legged Jack-Up)

Position Title : 3.4U Inspection Engineer / Data Recorder (Offshore)

Scope/Details:

- Performed subsea intermediate inspection for Class & Statutory Certification for Permanent Offshore Installation by RINA Malaysia.
 - Utilized SEAMOR ROV Chinook with real-time data capture via Sirrihatt Inspection Suite.
 - Conducted General Visual Inspection (GVI) and Ultrasonic Testing (UT) wall thickness survey on MOPU jack-up legs to evaluate structural integrity.
-

Company : **Sirrihat Subsea Services Sdn Bhd**

Client : Technip MMHE JV

Project : Platform Baseline Inspection Campaign (KSCPP & KSDP-A Platforms, Kasawari Field, Sarawak Waters)

Duration : 24 Jun 2025 – 11 Aug 2025

Position Title : 3.4U Inspection Engineer / Data Recorder (Offshore)

Scope/Details:

- Performed baseline platform structural inspections using ROV Oceanus Pro Defender & ROV Videoray Defender with real-time logging via Sirrihatt Inspection Suite.
 - Conducted Flooded Member Detection (FMD) surveys utilizing Impact Subsea FMD Oceanscan on structural members.
 - Carried out GVI, CVI, anode surveys, caisson and conductor inspections, and riser/support clamp assessments on the platform structure.
-

Company : **Sapura Subsea Services**

Client : PTTEP Sarawak Oil Ltd

Project : Subsea Inspections & Operations Support (SKA Sarawak Waters)

Duration : 26 Jan 2025 – 21 Mar 2025

Vessel/Barge : Sapura Conquest (Vessel)

Position Title : 3.4U Inspection Engineer / Data Recorder (Offshore)

Scope/Details:

- Conducted subsea inspections using Air Dive and WROV (SMD Atom A6) with real-time reporting via the Sirrihatt inspection suite.
 - Performed platform inspections (PE-SA, BE-SA, SA-SA), monitored FSO propeller and clamp installations for leaks.
 - Supervised subsea anchor wire cutting/retrieval operations and verified subsea valve isolation status.
 - Conducted Magnetic Particle Inspection (MPI) on jacket structural members and assisted in the setup and execution of Alternating Current Field Measurement (ACFM) inspections.
-

Company : **Alam Maritim Resources Berhad**

Client : Petronas Carigali

Project : Major Platform & Pipeline Inspection Campaign (SKA Sarawak Waters)

Duration : 23 Oct 2024 – 28 Nov 2024

Vessel/Barge : Meo Resolution (Vessel)

Position Title : 3.4U Inspection Engineer / Data Recorder (Offshore)

Scope/Details:

- Conducted major platform and pipeline surveys using WROV Jerung 01 & ROV Seaeye Tiger with real-time data capture via OBS Studio and IDAMS Winair.
 - Completed inspections on platforms (TEDP-B, TEJT-C, BNP-B, BN14).
 - Inspected subsea pipelines (SKAPL329, 397, 400, 220) to ensure asset integrity.
-

Company : **KL Petrogas & Surya Nautika**

Client : Carigali Hess

Project : Subsea Inspections & Operations Support (MTJDA Malaysia-Thai Waters)

Duration : 9 Oct – 19 Oct 2024

Vessel/Barge : Mermaid Sapphire (Vessel)

Position Title : 3.4U Inspection Engineer / Data Recorder (Offshore)

Scope/Details:

- Performed subsea inspections using WROV Quasar 06 via Sirrihat Inspection Suite.
- Supervised subsea debris removal (B11DR-A), jack-up approach monitoring, and subsea footprint surveys in Malaysia–Thailand Joint Development Area.

Company : T7 Global Bhd

Client : Petronas Carigali

Project : Dulang PMA Major Platform Inspection (Dulang PMA Field, Terengganu Waters, Malaysia)

Duration : 21 Aug 2024 – 6 Sep 2024

Vessel/Barge : AWB Petra (Vessel)

Position Title : 3.4U Inspection Engineer / Data Recorder (Offshore)

Scope/Details:

- Performed subsea inspections using ROV Argos with real-time data capture via Sirrihatt Inspection Suite.
 - Carried out platform inspections covering GVI, CVI, anode inspections, caisson and conductors inspection, and riser/support clamp assessments on the Dulang platform structure.
-

Company : T7 Global Bhd

Client : Petronas Carigali

Project : EWDP-Gas Platform Inspection (ERB West Field, Sabah Waters, Malaysia)

Duration : 13 Jun 2024 – 6 Jul 2024

Vessel/Barge : AWB Perdana Excelsior (Vessel)

Position Title : 3.4U Inspection Engineer / Data Recorder (Offshore)

Scope/Details:

- Performed subsea inspections using ROV Chinook with real-time data capture via Sirrihatt Inspection Suite and IDAMS Winair.
 - Inspected ERB West field (EWDP-Gas Platform), including GVI, CVI, anode, caisson & conductors, and riser/support clamp inspections.
-

Company : T7 Global Bhd

Client : Petronas Carigali

Project : EWDP-Production Platform Inspection (ERB West Field, Sabah Waters, Malaysia)

Duration : 16 Apr 2024 – 1 Jun 2024

Vessel/Barge : SK Marco Polo (Vessel)

Position Title : 3.4U Inspection Engineer / Data Recorder (Offshore)

Scope/Details:

- Performed subsea inspections using ROV Chinook with real-time data capture via Sirrihatt Inspection Suite and IDAMS Winair.
 - Carried out major platform inspections at ERB West (EWDP-Production Platform), covering GVI, CVI, anode, caisson & conductors, and clamp inspection tasks.
-

Company : **Sapura Subsea Services Sdn Bhd**

Client : PTTEP Sabah Oil Limited

Project : BLOCK H and K Deepwater Inspection by ROV (Block H & K Deepwater Field, Sabah Waters, Malaysia)

Duration : January 2023 – February 2023

Vessel/Barge : DP2DSV Sapura Jane (Vessel)

Position Title : Field Engineer (Offshore)

Scope/Details:

- Supported deepwater ROV inspection operations on Block H & K subsea assets, ensuring data QA/QC and structural integrity compliance.
 - Coordinated dive and ROV logs, verified subsea survey data, and drafted daily progress reports (DPR) onboard DP2DSV Sapura Jane.
 - Monitored real-time ROV video feeds and logged anomalies, ensuring strict QA/QC standards for client PTTEP.
-

Company : **Sirrihatt Subsea Services Sdn Bhd**

Project : Onshore Engineering & Reporting Support (Subang Jaya, Selangor, Malaysia)

Duration : November 2022 – September 2023

Position Title : Data QA/QC Coordinator

Scope/Details:

- Final Reporting: Converted rough daily logs from offshore operations into polished, formal client reports.
- Data QA/QC: Verified accuracy of subsea video footage, timestamps, and anomaly descriptions against physical logs.
- Database Management: Uploaded validated offshore data and inspection logs into integrity software systems.
- Drawing Updates: Marked up CAD and "As-Built" drawings to reflect new subsea findings and anomalies.
- Work Pack Creation: Wrote detailed, step-by-step inspection procedures and checklists for upcoming subsea campaigns.
- Desktop Studies: Reviewed historical integrity reports to identify targeted areas of interest for future monitoring.

TECHNICAL EXPERTISE SUMMARY

- Underwater inspection & NDT** : Planning and executing NDT and visual examinations on jacket structures. Experienced in CP surveys (Buckleys Bathycorrometer, ISIS/IICORR), UT (Cygnus UT gauge), FMD (Impact Subsea / Gamm@scan), ACFM, MPI, and GVI/CVI. Experienced in coordinating subsea debris removal using ROVs and diving teams.
- Pipeline Integrity Inspections** : Conducting subsea pipeline inspections using ROV and diving teams. Expertise includes subsea gooseneck, spool, flanges, sleepers, buckling initiators, valve isolation status, encapsulation clamp installation, leak detection, and removing subsea obstructions (e.g. anchor wire cutting).

PROFESSIONAL EVALUATION / APPRAISAL

Professional Evaluation: Muhammad Amin has been recognized for his reliability, performance quality, and meticulous subsea reporting. RINA and Petronas clients have commended his data recorder workflows.

Appraisal Letter Verification: tinyurl.com/aminazman-inspection (See Certificates section)
